Even secular more among us can understand why someone would like to have a digital version of the Bible. If it is the type of person that is consisted when reading the "good book", you would probably like the ability to do it where possible. But as is the case, a large number of people who would be interested in a more conveniently transportable version of the Bible may not have the technological socks to operate a Kindle and download a copy. Which is precisely the idea of the Wonder Bible, an electronic pocket device that allows the user to listen to the Bible aloud when pressing a boton. Its conservative design, high contrast LED screen and large buttons facilitate operation even by users with a limited view or skill. The Wonder Bible shows people all ages who use the device, but it is not very difficult to read between lines and see the device really directed. We take a look at a young entrepreneur who takes a wonderful Bible to the central console of his expensive sports car, but in reality, the scenes of a retiree sitting thoughtfully in his living room are much more closest to the brand. In truth, the functionality of the Wonder Bible could replicate easily with an application for smart phones. It could be said that it would even be an improvement for the majority of the standards. But not everyone is willing or can follow that route, which creates a market for an affordable independent device. Is that market large enough to devote a lot of time to expenses and engineering? Open one of these sacred personal companies and discover. The salvation ready to use is very clear from the beginning: the Wonder Bible is just an MP3 player. Literally. There is a micro SD card attached right on the side with sol sol .sotnemats set soveun y sojeiv sol ed sorbil setnerefid sol arapes euq ociuqr; Ärej oiroterid ed arutcurse anu ne 3PM ed BG 4 anu se zovatla le ,olpmeje roP .setnanoisepmi etnatsab nos ellated la n³Äicneta al y dadilac al ,)DSU 02 \$( 51 \$ rop neneit sol satsironim sol ed aÄroyam al( rednoW ailbiB al ednev es ocop n; Äuc atneuc ne odneinet sotsag norarroha oN .avitisop n³Äicaciftnedi anu sonrad arap selbinrecsid sacram eneit on euqnua ,agrac ed rodalortnoc le aes aÄretab al ed n³Äixenoc al rop senip ocnic ed ovitisopsid nu euq elbaborp sE .orelbaf le ne s; Äm ohcum yah on ,zovatla le rop 2008 rodaciflpma le y lapicnirp pihc led ; Älla s; ÄM .etnacirbaf la sonem la ; Äreconocer setnatsnoc serotcel sortseun ed onu s; Äziuq euq ol rop ,ovitnitsid yum etnacirbaf ed opitogol nu eneit pihc le ,ograbs me niS .olle arap sotad ed ajoh anugnir rartnocne odidop eh on orep ,L9F2KCC odateuqite 84-PFQS pihc olos nu noc anoicnuf ovitisopsid lE .osac etse ne ohcum aduya son on ose etnemadanutrofased orep ,rednoW ailbiB al ne sargen ixope satog sadimet sal ed ortsar yah oN .rartne arap ovitisopsid le etnemacisÄf repmor euq evut ejatnomsed ed eires atse ne zev aremirp rop euq ritimda ed odaznogreva ogl a yotse ,allatnap ed lesib led ojabed etnemasoidisni otluco ollinrot nu noc y sotnuj sodageP .euqnat nu omoc odiurtsnoc ; Ätse ,osac odot nE .rednoW ailbiB al ne n³Äiccurtsnoc ed dadi lac al ne olam ed adan yah on ,otse ohciD .ojificirc le ne odaicor le se otcudorp le ratelpmoc arap atlaf el euq ol odot y ,n³Äicceyti rop odaedlom otnicer nu ne zovatla nu y aÄretab anu elczeM .atsilpmis nat oiraus nu ratuscje arap otseuper ed OIPG ed serodasap sonugla ; Äratisecen olos y ,saÄd sotse ne licÄfid aerat anu se on 3PM racifidoced arap omoc etnetop etnemetneicifus ol rodalortnocrcim nU .rednoW ailbiB al omoc ovitisopsid nu rarig aÄrdop otarab y odip; Är nat ©Äuq rev licÄfid se on ,onimac led areuf ose noC .Äs ne rednoW ailbiB al rasu ed ragul ne n³Äiccele ed aidemilum rotcudorper us a etol le etnemlic; Äf ratropmi aÄrdop euq ol rop ,sadauced 3DI sateuqite sal eneit osulcnI considerable that it is loud and sounds pretty good for its size, and the micro SD slot actually has a spring load. The batteria is also a good 18650 extreme cell instead of silver pouch hot glued into the case. The display also appears to be custom manufactured, which surely didn't come cheap. Readability was likely a top concern when designing the Wonder Bible, and the bright LEDs combined with an almost mirror-finished plastic diffuser makes it easily visible from any angle. Even in bright light, the numbers and icons are vibrant and sharp. Uncovered, we can see an interesting textured black finish on the module as well as the various icons that will light up as the Wonder Bible operates. But we also see something of a mystery: the USB icon. The manual makes no mention of using the USB port on the device for anything but charging, so what could it be for? Diving Deeper After flipping the PCB back over, a close examination confirmed that the USB port's data lines were indeed connected. Naturally, I plugged it into my computer to see what it would do. The screen instantly lit up and said cÄÄÄPCcÄÄÄ, which seemed like a good sign. Even if it was a bit ironic that the dedicated USB icon apparently isn't used. A few seconds later, the micro SD card in the device was mounted on my system and I could see all of the MP3 files. This seemed like a handy enough feature, if somewhat unnecessary given the device's function. After all, it's not like the content of the Bible is likely to change in the near future and require an update. Thinking that an examination of the information the Wonder Bible was reporting to the computer might provide some useful clues, I ran lsusb to see what the kernel had to say about the hardware: Well, that's strange. According to this, the hardware was not only being picked up by the kernel's USB Mass Storage driver, but it's also coming up as an audio and an input device. A quick check of my system's audio settings showed that I could indeed select the Wonder Bible as an audio output, and it did a respectable enough job playing the ambient electronic That serves as Hackaday's de facto soundtrack. But, what happens with that human interface device? Looking through /proc/bus/input/devices I could see the file to which it was assigned by the number, and the Evttest program allowed me to examine it and listen to the events. This showed that, although the device informs that it can provide a set of media reproduction controls, it only intervenes when it presses the posterior buttons and forward: now why you can do all this is to assume that someone supposes. A bay lazy in line shows that Gembird causes a series of MP3 reproduction devices, and these functions could simply retain from any device originally to carry this chip. It is also possible, although less likely, that there was a software on the side of the PC that allowed the user to connect their Wonder Bible to the computer listen to additional content using the family controls of the device. In last instance, a past era, the Wonder Bible was a very interesting device to take a look. While the hardware is obviously quite simplistic, it is much better built than I was at first glance. He could probably even argue that he is too constructed; There are many obvious measures of cost reduction that could have been taken to reduce the cost of production of the Wonder Bible, but manufacturers have decided to take the way. Disassembly also proved to be a good exercise to work with unknown USB devices and identify what they are capable of. So, can you buy a second-hand Wonder Bible and load it with episodes of the back of the Podcast Hackaday? Of course. I have done it and works well. You can even navigate through them by writing the episode numbers on the keyboard. But it would be much more difficult to use your phono. Than to ne ne orep ,amelborp narg nu odis aÄrbah sodazinagro etnemetsolucitem 3PM sovihcra ed sotneic rajenam aÄrdop euq ohceh neib etnemetnednerpros ovitisopsid nu ,sadac©Äd ed rap nu ecah :erawdrah etse noc amelborp le se It is little more than a superfluous device. Activate and hold the button to confirm that you are human. Thank you! Try a different one, the island of Tinaga, Calaguas, houses three main islands: Tinaga, Quintinua and Maculabo, in addition to some other nearby islets. People tell their Calaguas experience during their time on the beach of Mahabang Buhangin, a long section of white sand beach on the island of Tinaga. An obligatory visit for its virgin beauty and immersive nature, visitors are received with the sunny climate and relaxing sound of the waves, all of which are pleasant even when they camp in their campaign store. While there are no commercial offers of tours on the island in Calaguas, you can always hire a private ship that will take it for the day for the day. But you can always negotiate with the place depending on your budget. In addition to Tinaga, the deserted islands of Quintinua and Maculabo are also worth visiting the serenity of Calaguas. You can also do some fun activities such as snorkeling, diving or even walking to kill time. Buy a coconut of the place to take with you and keep it renewed in your day. 3. Caramoan if you want to leave the network and escape the crowds, the large number of Caramoan's secret beaches, crystalline waters, medical lagoons and stalactite caves, this should be a priority in its itinerary. In fact, you can make a jump tour of the island of Caramoan with a private transfer of virac, catanduanes, if you are already by bicol. Caramoan is considered the last border of the Philippines in terms of unknown islands. This isolated core establishes the new ed ed n³Ätnom nu ecerfo dnalsI naomaraC .sasocor senoiccamrof selbÄercni sus y adavresnoc neib aniram adiv us noc selaedi selaciport sonitsed arap For kayak, diving, snorkeling, rock escalation and exploring lagoons and caves. You can experience all this through the Isla Salto and visit some or all attractions in the main islands: Bag-ting, Cagbanilad, Catanhawan, Cotivas, Lahos, Matukad, Minalahos, Pitogo and Sabitang -Laya. So you explore as much as you can! 2. Donsol whale shark interaction center knows the adorable whale sharks on the Tour of the Donsol Whale Shark Tiburon Center! World Wildlife Fund (WWF). Like many other tourisms in the Bicol region, the municipality is leading the way for sustainable tourism by involving the general public to discover and comply with the Giant Gentiles of the Philippine Sea.
